

Year 1 / Day 1 Home Learning - Maths Challenge!

I am 6!

In Year 1 you should have your 6th birthday, you may already be 6 now!

This challenge is about finding a variety of ways of asking questions which make 6.

You might think of $4 + 2$, or $14 - 8$ or... $100 - 94$...

However, try to create examples that use all the different maths ideas that you know about. You could use addition, take away, multiplying and dividing (sharing). Perhaps you could challenge yourself to find ways of making 6 that you think no-one else will have thought of!

Write your challenge on any paper.
